Thank you for visiting, you are one click away from enjoying. Search engine i.e. in other words, probably people can't find your website. To do this, go to Search Console. I encourage you to go through some of the suggestions that you can do, rather than just hit refresh. This will help you grow your click numbers. Do you want to find your website listed on the Search Console? If yes, you need to go to the Search Console. They have specific steps on the tutorial page. Just go through their guidelines and you will be up and running in no time! If you want to move and place your link then you can do it in the settings. You can do it even if you don't have a tracking number yet. Recommended actions: Instead of copying your link, you can manually enter it or get the value using the shortlink plugin or google/bing/yandex/to name a few. If you share your file, you have to provide a longlink, this should help you. How do I use the code? That's a question which I don't know the answer to. Is there a tutorial for a beginner? I've tried to search for one but no success. Are there discounts? I use a discount site, we get 15% off at affordable-ecommerce.com What is a share file? I'm not entirely sure what a share file is. How do you explain that for a video? A share file is a video in most cases with a shared link. This means someone can check and play the video, but the only thing they are allowed to do is check it. You have to use a setup file to add data to the video. What is a HD Video? I've not seen one yet, but i'll try to watch one. Is there discounts? Yes, there is. I can't tell you what the discount is off but it's quite good. The website is affordable-ecommerce.comQ: Does an SSIS Package start when it's execute? I have an SSIS package that runs through many steps. However, I want to know whether it ever starts executing when the package is clicked. Is it like a long running process? A: No it is not
